

Password Reset & Account Recovery Guide

NexaCloud SaaS Platform | Customer Support Documentation

1. Standard Password Reset

If you have forgotten your NexaCloud password, you can reset it easily using your registered email address. The reset link is valid for 30 minutes from the time it is sent.

Steps to Reset Your Password:

- Step 1: Visit the NexaCloud login page at <https://app.nexacloud.io/login>
- Step 2: Click 'Forgot Password?' link below the login button
- Step 3: Enter your registered email address and click 'Send Reset Link'
- Step 4: Check your inbox (and spam/junk folder) for an email from noreply@nexacloud.io
- Step 5: Click the reset link in the email - it expires in 30 minutes
- Step 6: Create a new password meeting the requirements listed below
- Step 7: Click 'Update Password' and log in with your new credentials

Password Requirements:

- Minimum 12 characters in length
- At least 1 uppercase letter (A-Z)
- At least 1 lowercase letter (a-z)
- At least 1 number (0-9)
- At least 1 special character: !@#\$\$%^&*
- Cannot reuse your last 5 passwords

2. Did Not Receive the Reset Email?

If you did not receive the password reset email within 5 minutes, try the following steps:

- Check your Spam and Junk mail folders
- Make sure you are checking the correct email account
- Add noreply@nexacloud.io to your contacts or whitelist
- Wait 5 minutes - emails may be delayed during peak periods
- Try the reset process again from a different browser or incognito mode
- Contact your IT administrator if your company filters automated emails

3. Account Locked Due to Failed Login Attempts

NexaCloud accounts are automatically locked after 5 consecutive failed login attempts as a security measure. You will receive an email notification when this happens.

Self-Service Unlock (Available 24/7):

- Visit <https://app.nexacloud.io/unlock>
- Enter your account email address

- Complete identity verification (email code + security question)
- Your account will be unlocked immediately after successful verification

Admin Unlock (For Organization Accounts):

If you are part of an organization, your Organization Admin can unlock your account by navigating to: Admin Panel > Users > Active Users, searching for your name, and clicking 'Unlock Account'.

4. Two-Factor Authentication (2FA) Issues

If you have lost access to your 2FA device or authenticator app, follow these steps:

- On the 2FA login prompt, click 'Use Backup Code'
- Enter one of your 8-digit backup codes (provided when 2FA was set up)
- Each backup code can only be used once
- After logging in, go to Settings > Security to reconfigure your 2FA device

No Backup Codes Available?

If you no longer have your backup codes, contact security@nexacloud.io with: your account email, a government-issued photo ID, and your organization name. Manual account recovery takes 3-5 business days due to identity verification requirements.

5. SSO (Single Sign-On) Password Reset

If your organization uses Single Sign-On (Google Workspace, Azure AD, or Okta), your password is managed by your Identity Provider - NOT by NexaCloud. You must reset your password through your company's IT team or identity provider portal. NexaCloud admins can temporarily disable SSO under Admin > SSO Settings > Emergency Bypass if access is urgently needed.

6. Account Recovery After Deactivation

If your account was deactivated by an administrator or due to non-payment, reactivation is possible:

- Accounts deactivated within the last 30 days can be reactivated
- Email accounts@nexacloud.io from your registered email address
- Provide your account email and a brief business justification for reactivation
- Reactivation is typically processed within 1 business day
- Accounts deactivated for more than 30 days are permanently deleted per our data retention policy

7. Contact Support

If none of the above steps resolved your issue, please reach out to us:

- Account & Password Support: accounts@nexacloud.io
- Security Issues & 2FA Recovery: security@nexacloud.io
- Support Portal: <https://support.nexacloud.io>
- Live Chat: Available Mon-Fri 9AM-6PM UTC (Business and Enterprise plans)
